## Eastwood Painting Project

REPAINT BALTIMORE CITY  
HISTORIC FIRE MUSEUM OWNER  
BALTIMORE CITY

(RICHARD NELSON - 410-396-4434)

This Project Called for the cleaning and painting of the metal cornice as well a windows and columns as well as windows and columns and all of the decorative details.

This was an exciting project for Eastwood in 2002 that presented many challenges. The height of the Tower 104 feet high and was the site of the original fire station lookout for all of Baltimore City in the late 1800's. Traffic maintenance was also a issue since it is located on a busy main street in the City.

Eastwood prides itself with a comprehensive safety program that enables us to safely complete such challenging jobs. This profitable project was completed on time, without incident and without any negative impact to the area due to its busy location. Eastwood is proud to be part of this renovation for Baltimore City.

The large photo was featured in the Baltimore Daily Record newspaper.

TOTAL FOR THIS PROJECT WAS \$ 23,640.00
