Eastwood Painting Project

FORRESTER CONSTRUCTION CO.
12231 PARKLAWN DR
ROCKVILLE MD

(Reseva White - 240-375-6647)

Maryland State Highway Administration
OMT Consolidated Lab & OOC Facility
Project N0. AT6155129 Hanover Maryland

This large scale project was a diverse opportunity. It included using specialty coatings since areas of this project included the coatings of Labs and Testing Facility that required attention to detail to insure mil thickness and adhesion to substrates.

This project also included the painting of two floors in an office space as well as public areas since it is now the Headquarters of SHA Testing Facility of BWI.

Since this project was also fast tracked, the challenge of working with other trades helped us get a better understanding of the needs of owners who must keep a project on point and ensure that quality was not sacrificed.

We are proud of our work as well as having a great result from this project and forming what we hope is a long term relationship with Forrester Construction Co.

TOTAL OF THIS CONTRACT: \$ 222,375.00
