Eastwood Painting Project

SANDTOWN-WINCHESTER SQUARE
GENERAL CONTRACTOR - STRUEVER
BROS, ECCLES & ROUSE, INC

(ADAM BENSON - 443-573-4050)

The Sandtown-Winchester Square project was part of a broader revitalization effort that was contracted by the Nehemiah grant and is key to the positive change in this historic area.

Eastwood entered into a contractual relationship with Struever Bros, Eccles & Rouse, Inc. who served as the General Contractor on this phase of the revitalization of this area.

Eastwood completed a total of 134 townhouses of different sizes which included the caulking & painting of the interior and exterior surfaces of these homes. Here we learned the value of trade coordination which really launched Eastwood's ability to handle residential painting on a commercial type schedule and scale.

We were happy to be part of this project which we completed in 2005.

TOTAL FOR THIS PROJECT \$ 287,725.00
